CATCH CHAIR JH2

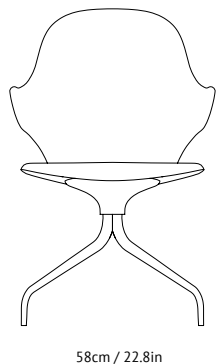

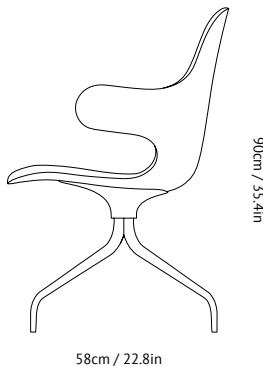

BY JAIME HAYON
2013

Catch, Jaime Hayon's first contribution to &tradition's collection, is a chair that welcomes you with open arms. Its armrests extend from the shell like literal limbs, ready to embrace you as you sit down. In addition to being a witty personification, it is also an eye-catching piece of design. Serpentine lines give it a playful lightness that is counterbalanced by a sturdy, well-balanced base and legs that ensure maximum comfort. The shell offers comfort alongside great variability. With multiple textile and leather upholstery options available from Kvadrat and CA-MO and two different options for the legs (Wooden legs or swivel base), Catch can be adapted to almost any colour scheme. & in the 1980s, Hayon was interested in skating and graffiti culture, which had an impact on the playful, detailed, colourful and humouristic elements in his design style.
