

Tress, suspension design Marc Sadler 2009

FOSCARINI

The seduction of a woman's tress wash the initial inspiration for the Tress family of lamps. This design-come-true by Foscarini was achieved through the development of a completely original technological process, involving a fiberglass and resin tape woven with orderly casualness to become the structure and aesthetics of the lamp. Tress changes personality according to its colour: it is light and discrete in white, strong and decisive in black and volcanic and totemic in red, which makes the contrast between the interior and the exterior even more evident.

The mini, small and medium size of Tress hanging version has been designed to illuminate a specific area of the space below; on the other hand the big size is characterized for a more widespread light diffusion. All sizes can be used alone, to enhance a shadowy corner, or any other space in a room, or it can be used in line to create effects of perspective.

Description

Suspension lamp with diffused and direct light. The fibreglass-based composite material diffuser is produced by modelling tape along a mould with an automatic control of the pitch / pattern, which is then liquid coated. In the large version, blown glass internal diffuser with acid-etched finish, satin finish opaline glass upper screen and chromed metal frame, in the other versions chromed metal mount. Fitted with three stainless steel suspension cables for the large version, one for the other versions, and transparent electrical cable. Ceiling rose with galvanised metal bracket and glossy chromed batch-dyed ABS cover.

Canopy decentralisation kit – multiple canopy available (up to 6 or 9 suspension lamps).

Materials: compound material on lacquered glass fibre base and metal

Colours: white, black, red

Brightness

semi-diffused and direct down light

Model

Tress large

Weight

net kg: 4,90
gross kg: 6,40

Packing

vol.m³: 0,211
n.boxes: 2

Bulbs

– halogen energy saver 1x160W R7s (118 mm)

Certifications

Tress medium

Weight

net kg: 2,40
gross kg: 4,20

Packing

vol.m³: 0,113
n.boxes: 2

Bulbs

– halogen 1x100W E27 PAR 30 30°

Certifications

Tress, suspension multiple composition

FOSCARINI

Description

A technical solution that couples function with design harmony: The multiple ceiling flange of Foscarini makes it possible to create compositions up to 9 suspension lamps to create cascades of light of high emotional impact, particularly suitable to enrich a stair case.

The standard multiple flange is designed to suit a large number of suspensions from both Foscarini and Diesel with Foscarini collections.

Materials: lacquered metal

Colours: white

Multiple canopy

Weight

net kg: 8,70
gross kg: 10,00

Packing

vol.m³: 0,03
n.bboxes: 1

- Example with 6 suspensions
Tress media + Tress mini
