

# Drumbox, floor design Diesel Creative Team

Freely inspired by the lamps used on photo sets, Drumbox is pure versatility and technology with a fashionable twist.

Its materials come from the world of technical clothing: highly reflective treated linen teamed up with rip stop superlightweight polyester with heat-sealed seams like those on diving wetsuits. There are two variants available: white for pale, diffused light customised with a fluorescent yellow sign or grey for a more marked contrast with the pale front section.

Drumbox can be used anywhere and in anyway you like, as a table, suspension or floor lamp, on its own or in a group composition on a single tubular metal stem and in the most diverse settings.

## technical info

### Description

Floor lamp with diffused light. The conical part of the diffuser is made of stained linen coupled with a polymer; the fabrics are hand sewn with heat-sealed seams and the fabric of the base of the cone is made of polyester. The three burnished zip fasteners with the Diesel logo, functional and decorative, close the fabric on the powder-coated steel frame. The diffuser support joint is made of printed thermoplastic material, which has been customised with the Diesel logo in relief. The rod and base are made of powder-coated steel; foot switch and cable both black. Up to two lamps can be installed on the rod.

**Materials:** Linen coupled with techno polymer, polyester, thermoplastic material and coated steel

**Colours:** White, Grey

**Brightness**  
diffused light

## Diesel Creative Team

In 2009, Foscarini signed a partnership agreement with Diesel as part of the "Home Collection" home furnishings and lifestyle project. This partnership has given Foscarini the opportunity to make contact with a new target clientele and explore new lifestyles and furnishing trends through a collection conceived by Diesel for its own target group: "Diesel Living with Foscarini".

The Diesel Living with Foscarini collection speaks a range of different languages - from rock to pop, industrial to vintage, graphics to art - to illustrate the unmistakable Diesel lifestyle. Ironic, transgressive, eclectic, incandescent, the collection is made up of over 40 different lamp models. The collection is structured into a range of forms, materials and intended uses, lending itself to unexpected and unconventional settings, from domestic to public environments, always with a strong personality. The materials selected and researched for Foscarini, and perhaps even more so in the Diesel Living with Foscarini collection, are of the utmost importance. Materials which have never before been used in the lighting industry are the collection's added value.
