Design Ettore Sottsass

L 865 - Cocktail measure
Design Carlo Mazzeri, Anselmo Vitale

5053 - Bar strainer
Design Ettore Sottsass

5054 - Stirrer
Design Ettore Sottsass

5050 I

Shaker

Product Description

The 5050 shaker, now a barman's classic, was designed in 1979 by Ettore Sottsass and has therefore been in the Alessi catalogue for more than 40 years. We decided to modify the upper part of the so-called "Large glass", which will no longer be made of glass but of stainless steel. This change has been requested by many in the professional circle of mixologists since steel is clearly more resistant than glass in the fast and sometimes frantic hands of barmen.

Design Ettore Sottsass

Technical Notes

5050 I

American or "Boston" shaker in 18/10 stainless steel

Design Ettore Sottsass

5050 I

Shaker
