

Slice sofa

Design: Lex Pott

**A sofa inspired by a tennis ball,
hand-made in Holland**

**Available in multiple sizes and fabrics,
with an endless colour choice**

Inspired by the interlocking sections of a tennis ball, Slice is sculpted from high-quality materials to your specifications in size, fabric and colour.

Its timeless design is both modest and outspoken, contemporary yet timeless. Its concealed feet give it the impression it's ready to take off at any moment – adding a bounce to any space. Hand-made in Holland, it's a chance to co-create a design piece that will last a lifetime.
