

PINORAMA /  
*Design Inga Sempé, 2015*

---

Pinorama is the board for all the little things you want to keep handy or aren't sure where to put. The perforated metal in an oblong brick pattern has a cork backing, so that you can post papers, pictures and other bits and pieces with either pins or magnets.

Pinorama is a flexible wall module that helps you organize your everyday life, providing a functional, charming and versatile storage solution.

## INGA SEMPÉ /

---

With her intellectual arts background, French designer Inga Sempé is no stranger to the creative domain, but her way of navigating in the design field is unconventional and driven by an explorative and entrepreneurial energy. Inga Sempé's working process is guided by intuition, and the first stage is always drawing by hand. 'I don't take a structured approach in my design process but gradually work my way into a given task by drafting. What inspires me most is knowing that people use my objects in their every day life. That is where my focus lies. Creating simple designs with a light feel, which hopefully will add something new to people's daily life.'

Inga's unique strength is the ability to combine items and elements in new constellations with textural precision with a delicate yet humorous touch. All Inga Sempé designs reflect her curious, subtle, unrestrained and tactile design approach with a unique and personal expression that many international top brands have noticed and embraced.

Born in 1968
