Safety precautions

- Dispose of plastic bag from packaging and do not allow children to play with it.
- The table is only intended for indoor use.
- Handle tabletop with care in order not to scratch surfaces.
- Two or more adults are required when lifting the table.

Cleaning instructions

Laminate can be cleaned with a soft cloth wrung in a mild solution of lukewarm water and an universal cleaning detergent. Always wipe with a dry soft cloth after cleaning. For difficult stains such as coffee or tea use a nylon bristle brush with mild household cleaner or detergent, rinsing with clean water and repeating as necessary. Rinse thoroughly with water.

Aluminium (powder coated or polished) can be cleaned using a soft cloth wrung in lukewarm water. Always dry immediately with a soft cloth. Avoid use of abrasive cleaning products such as steel wool as this will cause damage to the surface.

NB! Make sure the holes on the corner (C) are facing up.

Step 1

Insert the corners (C) into the frames (D & E) as shown and attach them with screw (F). The 2 small holes on the corners (C) must be facing upwards, see illustration.

Important: Install only the screws slightly and then finally tighten all of them.

Step 2

Place the leg-section on the frame upside down and align all four legs in each corner (C). Install two long button screws (H) in each corner to connect them.

Step 3

Place the cover components on each of the 4 corners (C) and attach them with screws (K).

Step 4

Place the tabletop (A) upside down on a soft, flat surface and place the frame on top, upside down.

Important: Install only the screws (G) slightly and then finally tighten all of them to secure correct fit.

Finally, flip the table and enjoy your product.
