

## FAQ – Patioset

### ➤ Use

#### ○ **Which features does the Patioset offer me?**

The Patioset consists of various models of yard furniture that give a special functional interpretation to any outdoor space. The sustainable, low-maintenance Accoya® wood is of high quality. The luxurious design offers you a stylish, intimate patio in your own (outdoor) space.

### ➤ Safety

#### ○ **What safety hazards does the Patioset pose?**

The Patioset has, just like other furniture, edges and corners that may hurt when bumped into. Therefore, always keep an eye on small children near the Patioset.

### ➤ Maintenance

#### ○ **What do I need to pay attention to when maintaining the Patioset?**

We recommend spraying the Patioset twice a year with cleaning vinegar. Let it soak for three days and afterwards clean thoroughly with a sponge and water. We advise against cleaning the Patioset with a pressure washer.

#### ○ **How important is maintenance to the Patioset?**

To optimally preserve the quality and lifespan of the Patioset and to secure your enjoyment for years to come, it is important to clean the Patioset twice a year.

### ➤ Weather conditions

#### ○ **Which weather conditions will the Patioset withstand?**

The Patioset is designed for outdoor use and can withstand the daily weather conditions. The wood, however, will weather. If the set is placed outside, UV may cause it to gray. This also has its effect on the stained variants. The Patioset is made of Accoya® wood and is lightweight. Use the mounting brackets for the Patio High Back to additionally secure the yard bench and prevent it from being blown down. For other models it may also be wise to add weight or store indoors.

### ➤ Material

#### ○ **What materials does the Patioset consist of?**

Sustainable, low-maintenance Accoya® wood.

#### ○ **How much does the Patioset weigh?**

The Patioset comes in different models with different weights:

The Patio High Back 2-3 seater weighs 54kg.

The Patiobench 2-3 seater weighs 18kg.

The Patiobench 4-5 seater weighs 25kg.

The Patio Easy Chair weighs 10kg.

The Patio Side Table weighs 5 kg.

#### ○ **Is the Patioset easy to move?**

Due to its design the Patioset is easy to lift. We recommend lifting the Patio High Back and the patio benches with more than one person. The Patio Easy Chair and Side Table can be easily moved by one person. It is important that, when moved, the Patioset is not lifted by a single lath. Especially with the heavier Patio sets this may damage the connection of this lath.

### ➤ Packaging

#### ○ **How will the Patioset be packaged?**

The Patioset will be packaged in a flat pack box.

#### ○ **What packaging materials are used?**

Cardboard.
